Guiding Principles
For the UK government, for the government of Montserrat and for the people of Montserrat.

1. To recognize that all people need a healthy environment for their well-being and livelihoods and that all can help to conserve and maintain it.
2. To use our natural resources wisely, being fair to present and future generations.
3. To identify environmental opportunities, costs and risks in all policies and strategies.
4. To seek expert advice and consult openly with interested parties on decisions affecting the environment.
5. To aim for solutions which benefit both the environment and development.
6. To contribute towards the protection and improvement of the global environment.
7. To safeguard and restore native species, habitats and landscape features, and control or eradicate invasive species.
8. To encourage activities and technologies that benefit the environment.
9. To control pollution, with the polluter paying for prevention or remedies.
10. To study and celebrate our environmental heritage as a treasure to share with our children.

Commitments
The government of the UK will:
1. Help build capacity to support and implement integrated environmental management which is consistent with Montserrat’s own plans for sustainable development.
2. Assist Montserrat in reviewing and updating environmental legislation.
3. Facilitate the extension of the UK’s notification of Multilateral Environmental Agreements (involving Montserrat) and which Montserrat has to implement.
4. Keep Montserrat informed regarding new developments in relevant Multilateral Environmental Agreements and invite Montserrat to participate where appropriate in the UK’s delegation to international environmental negotiations and conferences.
5. Help Montserrat to ensure that it has the legislative, institutional capacity and mechanisms it needs to meet international obligations.
6. Promote better cooperation and the sharing of experience and expertise between Montserrat, the Overseas Territories, and small island states and communities which face similar environmental problems.
7. Use UK, regional and local expertise to give advice and improve knowledge of technical and scientific issues. This includes regular consultation with interested non-governmental organisations, Government Agencies and networks.
8. Use the existing Environment Fund for the Overseas Territories, and promote access to other sources of public funding, for projects of lasting benefit to Montserrat’s environment.
9. Help Montserrat identify further funding partners for environmental projects, such as donors, the private sector or non-governmental organisations.
10. Recognise the diversity of the challenges facing Overseas Territories in very different socio-economic and geographical situations.
11. Abide by the principles set out in the Rio Declaration on Environment and Development (see Annex 2) and work towards meeting International Development Targets on the environment (see Annex 3).

The government of Montserrat will:
1. Bring together government departments, representatives of local industry and commerce, environment and heritage organisations, the Governor’s office, individual environmental champions and other community representatives in a forum to formulate a detailed strategy for action (see Annex 1).
2. Ensure the protection and restoration of key habitats, species and landscape features through legislative and appropriate management structures and mechanisms, including a protected areas policy, and attempt the control and eradication of invasive species.
3. Ensure that environmental considerations are integrated within social and economic planning processes; promote sustainable patterns of production and consumption within the territory.
4. Ensure that environmental impact assessments are undertaken before approving major projects and while developing our growth management strategies.
5. Commit to open and consultative decision-making on developments and plans which may affect the environment; ensure that environmental impact assessments include consultation with stakeholders.
6. Implement effectively obligations under the Multilateral Environmental Agreements already extended to Montserrat and work towards the extension of other relevant agreements.
7. Review the range, quality and availability of baseline data for natural resources and biodiversity.
8. Ensure that legislation and policies reflect the principle that the polluter should pay for prevention or remediation; ensure that potential polluters are educated about the impact of continued pollution; and establish effective monitoring and enforcement mechanisms.
9. Ensure that teaching within schools promotes the value of our local environment (natural and built) and explains its role within the regional and global environment.
10. Promote through the media, cultural programmes and publications awareness of the special features of the environment in Montserrat; promote within Montserrat the guiding principles set out below.
11. Abide by the principles set out in the Rio Declaration on Environment and Development (see Annex 2) and work towards meeting International Development Targets on the environment (see Annex 3).
